Physicians

To The Physician:

Your patient has become a member of RWJ Fitness & Wellness Center. It is our goal to provide them with a safe and assisted environment to exercise as they work towards optimal health. They can receive screening and fitness assessments from the nursing department and one-to-one programming from the exercise physiologist/personal trainer on a regular basis as part of their membership.

As a facility, we recommend medical clearance for any individual who is 50 years and older, under 18 years old, or for any individual with a medical history or condition. The goal of the medical clearance is to outline any restrictions or guidelines for your patient that may be needed to keep them safe while exercising. As each individual is unique and may require specific guidelines/restrictions, we are asking you for your input in establishing what may be needed for your patient.

Once we receive the medical clearance, the exercise physiologists/personal trainers utilize the guidelines listed on the clearance form as they program each individual. Receipt of the completed medical clearance form is required before the trainers will program your patient to ensure they comply with any noted medical concerns. We also encourage you, as the Physician, to list any activity/area of need that you think would benefit your patient. If you would like to communicate with an exercise physiologist/personal trainer, please indicate your telephone number or e-mail address on the clearance form so they may contact you.

In compliance with HIPAA regulations, we do not require you to list your patient's history or condition. (We will be obtaining medical histories directly from the member during the nursing assessment.) Also, please note that the fax number listed on the top of the form is a direct line to the Nursing Office. All information will be safeguarded in accordance with standard medicallegal protocol. The clearance form will be put directly into the member's file. It is important that you delineate one of the three noted options. If no restrictions or guidelines are needed, please mark the "no restriction" box. Please identify any restrictions or guidelines that may be needed to keep your patient safe. If you have any questions or concerns about the Medical Clearance Form please contact the Nursing Department at 732.525.2900. We appreciate your assistance and input.
